IMAGINATIK WINS A QUEENS AWARD FOR ENTERPRISE

LONDON – Imaginatik plc (AIM: IMTK), a leading provider of business innovation and technology based systems for innovation and idea management, is today delighted to announce that it has been awarded a Queens Award for Enterprise in the International Trade category.

Following a rigorous judging procedure, which culminated with a short-list being scrutinised by the Prime Minister's Advisory Committee, Imaginatik received the award for the first time for its demonstration of substantial growth in overseas earnings and its commercial success, more than doubling its exports over three years.

Founded in 1994 by CEO Mr. Mark Turrell, Imaginatik developed a software-based process, now its core product "Idea Central", to enable corporations to facilitate innovations systematically across their operations. With Global headquarters in the UK, U.S. headquarters in Boston and additional operations in Germany, the Company has grown considerably with a strong client base of more than 100 companies including Pfizer, Hewlett-Packard, Weyerhaeuser Corporation, Chevron Texaco Global Lubricants and Cargill Inc.

"To receive a Queens Award for International Trade is a great honour for Imaginatik," said Mark Turrell, CEO of Imaginatik. "It is recognition of our substantial growth, both in the UK and overseas. We can now count some of the biggest names in the world as clients which is evidence of our expertise within the innovation sector as a systems developer and trusted advisor. This market is expected to experience immense growth and with our continued commitment to innovation we look forward to a successful future."

The Queen's Awards for Enterprise are the UK's most prestigious Awards for business performance. Announced on the Queen's birthday, Saturday 21 April, they recognise and reward outstanding achievements by UK companies. The Awards are made each year by The Queen, on the advice of the Prime Minister, who is assisted by an Advisory Committee that includes representatives of Government, industry and commerce, and the trade unions.
