## Imaginatik Plc

("Imaginatik" or the "Company")

### Contract win

Imaginatik plc (AIM: IMTK.L), the world's first full service innovation provider offering a range of technology products and consultancy services, is pleased to announce that it has signed a consultancy contract with a US based energy generation and distribution company, building on the three year technology contract that was closed in March 2015.

Under the terms of the contract, which is worth an additional c.\$250,000 over the next three months, Imaginatik will provide its innovation consulting expertise in order to support the client in co-developing the framework for its future innovation programme.

**Matt Cooper, Non-Executive Chairman, commented:** *"I am delighted to announce that we are able to further increase our footprint within this important client, further demonstrating the value in our combined consulting and technology offerings and the added value that we can deliver to our clients."*
